

Marysville Public Schools

Music Curriculum

Chorus 7/8

Students may elect to take this class for either a semester or for a full year. Students develop the vocal skills needed for group choral singing and performance.

Students study proper vocal tone production, rhythmic accuracy and melodic and rhythmic precision. A variety of choral literature is studied and performed, along with studies of music theory and history. Public performance is a course requirement and students are expected to participate in concerts.

Chorus 7/8 is aligned to both state and national standards.
