

Accounting

Course Description

Accounting is the language of business and an integral aspect of all business activities. Students will develop a mastery of fundamental accounting concepts, skills, and competencies that are essential to making informed business decisions. Regardless of students' chosen course of study or career path, accounting prepares students to either continue their education in a business field or prepares them to be informed consumers.

Glencoe Accounting: Real World Applications and Connections 2012 is thoroughly integrated with Peachtree Accounting and Quickbooks to give students a real- world learning experience.
