

Key Train

This school year, MHS grade 11 students are learning in Key Train. Key Train serves as the high school's online requirement for Merit Graduation. This online interactive program helps students with WorkKeys. Workkeys is part of the MME test required by the state.

Key Train is a complete interactive training system for career readiness skills, base on ACT's WorkKeys© assessment system and the National Career Readiness Certificate.

The National Career Readiness Certificate allows individuals to demonstrate their level of skill in the most common skills required for success in the workplace.
